Division Directors and Associates,

We need your help flagging any publications in the attached file that may be related to oil and gas. Please flag anything with a potential relation to this area for inclusion. I apologize for the short turn around; however, we need this by **COB Monday, May 13, 2013.**

Please send this to Alice Gilliland, Eric Hubbell and me.

You can highlight the O&G related lines by filling them in yellow in the spreadsheet.

Thanks for your attention.

Brian

Alice, Carlos, Doug, Joe and Randy

Hi. From the Executive Council, we received a request to compile a list of NRMRL publications for FY 2012 and 2013. We went out to the Divisions and Staffs and asked them to provide us with this information using a template created by NERL. Attached is NRMRL's complete list based on the Divisions' input. We are not asking you all to spend much time on this, but would like for you to review the publications listed. Are there any surprises for you all, or does the list mesh with our efforts under the RAP?

If you could review by COB Friday, 4/19, that would be great.

Thanks

Eric

ADDs

Good morning. Via the Executive Council, Cindy has been asked to provide a list of NRMRL publications that happened in FY 2012 and a planned list of publications for FY 2013. I've attached a template for each Division to complete related to this request, and I've based the template on NERL's response to the request. A couple of notes on the template:

- This is for publications, so do not include presentations, etc.
- If possible, please include the specific RAP Task and Product associated with the publication. If the publication is not related to the RAP, please list as "legacy," and explain the lack of linkage back to the RAP in the Comments field.
- Where possible, include the proposed title of the publication.
- **Please complete and return by COB on Wednesday, March 27.**

I realize there must be severe data call fatigue within the organization, and I thank you in advance for your efforts on this exercise. If you have questions, please call.

Thanks

Eric
